

Digital Matters

Recruitment & Talent Solutions for the Digital World

Digital Transformations

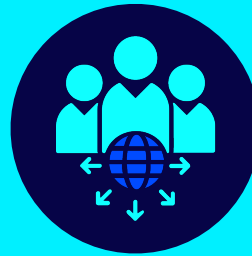

We provide recruitment solutions to banks, software companies, management consulting and transformation entities, and other organizations for all their digital transformations, including automation/transformation, ERP, cloud migration, RPA, machine learning, AI and cybersecurity.

FTE & Contract

We provide recruitment solutions for full-time, permanent and contract for digital talent in all verticals and all functional positions, including country leaders, programme/project managers, solution architects, sales/pre-sales, consultants, financial analysts, business analysts and developers.

Global & Scale

We provide recruitment solutions, at scale, globally in more than 30 countries, including North America (US, Canada), Western Europe, APJ (including Australia, New Zealand, Japan) and South America.

Managed Service Provider

We provide MSP solutions to banks and other large organizations who need to scale up for digital transformation projects. We can help by managing external sourcing firms, the interview and selection processes, and on-boarding, so your HR department can focus on core matters.
