

Talent Assessment Matters

Leading & Effective Assessments to Give You Valuable Insight into Your Talent

Psychometric Assessments

We utilize leading and effective psychometric assessments, including MBTI® and DiSC®, providing valuable information on psychological preferences and how decisions are made. Clients use these tests to evaluate prospective candidates, and develop and understand their current talent.

Leadership Assessments

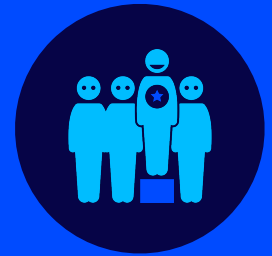

We conduct a variety of leadership and 360 feedback assessments, to support your key talent development, including self and situational awareness, EQ and decision-making style.

Competency Assessments

We conduct insightful competency assessments, allowing businesses to assess their current talent and identify gaps in skills. By learning how well their talent performs against pre-determined competencies, businesses can fill-in gaps and use the information in individual development plans.

Hi-Potentials & Succession Plan

We use a variety of assessment tools to identify and develop hi-potentials to keep them engaged and support their on-going development. This can also support organizational succession planning.
